Restrictive Practices Authorisation in NSW from 1 July 2018

Information for NDIS registered service providers

Definitions

Restrictive practices involve the use of interventions and practices that have the effect of restricting the rights or freedom of movement of a person with disability. These can include restraint (chemical, mechanical, environmental or physical) and seclusion (keeping someone in isolation).

Restrictive Practices Authorisation is authorisation for a particular practices to be implemented by staff with a certain individual, in a particular service setting, under clearly defined circumstances. The decision to authorise use of restrictive practices will be based on supporting information including behaviour support documentation, such as a Behaviour Support Plan (BSP) informed by a functional assessment of behaviour.

Overview

- From 1 July 2018, the NDIS Quality and Safeguards Commission will regulate behaviour support for NDIS registered service providers, including restrictive practices.
- Authorisation of restrictive practices is required in accordance with NSW policy while a nationally consistent model is developed.
- Service providers must comply with the new NSW Restrictive Practices Authorisation Policy and Procedural Guide.
- Restrictive Practices Authorisation (RPA) Panels will continue to be the primary mechanism in NSW for reviewing RPA submissions and either granting or declining authorisation.
- Requests to the RPA Panel for authorisation must be submitted via the NSW RPA ICT System, and must include a Behaviour Support Plan (BSP).

1 July 2018

What is not changing from 1 July?

- Restrictive practices should be minimised or eliminated.
- Restrictive practices should only be used in the context of a Behaviour Support Plan, based on an assessment of behaviour.
- Authorisation under NSW Government policy is required for the use of restrictive practices.
- Consent is required for the use of restrictive practices.
- Reporting is required on the use of restrictive practices.
- Service providers convene RPA Panels, or access existing RPA Panels, to obtain authorisation.
- Unauthorised use of restrictive practices is a reportable incident.

What is changing from 1 July?

- Restrictive practices are defined by the NDIS Quality and Safeguards Commission Rules and these definitions have been adopted for NSW.
- **The routine use of medication or chemical substance is defined as a restrictive practice. Chemical restraint is the use of medication or chemical substance for the primary purpose of influencing a person's behaviour. It does not include the use of medication prescribed by a medical practitioner for the treatment of, or to enable treatment of, a diagnosed mental disorder, a physical illness or a physical condition.**
- National oversight of behaviour support is conducted by the NDIS Quality and Safeguards Commission.
- FACS provides independent specialist members of RPA Panels.
- NDIS registered providers administer and manage requests for *authorisation* through one online system provided by FACS.
- NDIS registered providers report on the use of restrictive practices to the NDIS Quality and Safeguards Commission.

Commonwealth Definitions

Under the NDIS (Restrictive Practices and Behaviour Support) Rules, there are five (5) categories of regulated restrictive practice. The Commonwealth definitions will now be applied nationally.

→ Old	New ←
NSW Definitions	Commonwealth Definition
Seclusion	Seclusion
Exclusionary Time Out	
Physical Intervention / Restraint	Physical Restraint
	Mechanical Restraint
PRN Psychotropic Medication for behaviour	Chemical Restraint
Routine dose medication for behaviour *	
Restricted Access	Environmental Restraint
Response Cost	

*Not previously a Restrictive Practice in NSW

Transitional Arrangements and Timing

Planned use of a restrictive practice	Authorised prior to 1 July 2018	Behaviour Support Plan	Transitional Requirements
✓	✓	✓	Renew BSP and authorisation at expiry (no later than 12 months)
✓	✗	✓	Complete authorisation within 3 months
✓	✓	✗	Complete BSP and authorisation within 6 months
✓	✗	✗	Complete interim plan and authorisation within 3 month Complete full authorisation within 6 months

Interim and Full Authorisation

- In exceptional circumstances, interim authorisation for the use of restrictive practices is required pending the development of a behaviour support plan and authorisation by an RPA Panel. This should be sought as soon as practicable, not exceeding **3 month**.
- A senior manager of the provider can provide this interim authorisation having regard to the interim plan for behavior supports, including restrictive practices, and the context of the provider's authorisation. In providing interim authorisation the senior manager of the provider specifies the length of time for which the interim authorisation applies, not exceeding **6 months**.
- Full authorisation can be provided for up to 12 months. The RPA panel must not specify a period longer than 12 months as the period for which a restrictive practice is authorised.

Planned Restrictive Practices Authorisation process

RPA Panels

- An RPA Panel is the mechanism for authorising the use of restrictive practices.
- The RPA Panel:
 - includes at least two people:
 - a manager familiar with the operational considerations around the use of a restrictive practice in the intended service setting; and
 - an independent specialist with expertise in Behaviour Support
 - may include additional members such as a senior clinician or an advocate
 - receives submissions requesting authorisation via the NSW RPA ICT system
 - records its decision in a formal Outcomes Summary
 - *panel members cannot make a submission to that panel*
- The service provider will convene an RPA Panel, or access an existing RPA Panel.
- FACS can provide independent specialists to ensure that local RPA Panels have access to independent behaviour support expertise.

NSW RPA (FACS) Restrictive Practice Authorisation System

Purpose

- Manages and monitors authorisations of restrictive practices
- Service providers submit Behaviour Support Plans and other documents for the purpose of having a restrictive practice authorised
- Includes a Self Assessment Tool to determine whether authorisation is required

Access

- NDIS registered service providers
- Behaviour Support Practitioners
- Core RPA Panel members (manager and independent specialist)

Operation

- Service providers access the system via a portal at <https://rpa.facs.nsw.gov.au> to enter and maintain data
- RPA submissions lodged for consideration by RPA Panels
- Records decisions lodged by RPA Panels (Outcome Summary)
- Service providers notified of outcome and expiration of authorisation

Benefits of the RPA (NSW) Restrictive Practice Authorisation System

- Single and secure platform to record, submit, authorise and monitor restrictive practice authorisation
- Digitise information for ease of distribution among panel members and consent providers
- Receive notifications on upcoming authorisations
- Workflow approvals and rejections
- Generate reports to analyse restrictive practices, submissions and outcomes by provider, outlets or service settings

Rollout and Training

- As of 1 July 2018, a basic version of the online system will be available for service providers and practitioners to access. This version will allow users to:
 - register
 - submit an application
 - record outcome summaries
 - request a FACS Independent Specialist for the panel meeting
- From 1 October 2018, all features of the online system will be available. The remaining features may be rolled out progressively and users will be notified.
- A user guide and support will be available online for users
- User training will be delivered in various formats, for example web based workshops, **face-to-face** local/regional forums, recordings. Further information will be provided shortly.

RPA (FACS) ICT System Next Step - Registration

FACS Central Restrictive Practices Team

- A small central team, called the Central Restrictive Practices Team, will be located in FACS.
- The Central Restrictive Practices Team:
 - is led by two managers:
 - Manager, Policy Implementation
 - Manager, Clinical Specialists
 - supports implementation of the RPA Policy and Procedural Guide
 - embeds best practice advice and guidance in relation to the use and minimisation and elimination of Restrictive Practices into the authorisation process
 - provides an online system to register and manage requests for RPA
 - provides and funds Independent Specialists to participate in local RPA Panels
 - co-ordinates with the NDIS Quality and Safeguards Commission.

Next Steps Provider Checklist

- Register in the NSW ICT RPA System. Confirm pre-populated contact details, where applicable.
- Review and understand the requirements of the new Policy & Procedural Guide
- Comprehend the authorisation transitional arrangements
- Map practices against new authorisation framework, including the change to the definitions
- Develop a plan on how and when compliance with the new requirements will be achieved.
